VICE PRESIDENT'S CITATION FOR PUBLIC OUTREACH

DESIGN FOR AGING COMMITTEE

The 2016 Vice President's Citation for Public Outreach recognizes the AIANY Design for Aging Committee.

In a continuation of their work to increase public awareness of the needs of the aging and elderly in an urban environment, the Design for Aging committee has worked this year with the city to create guidelines for aging in place. The Guide was legislated by the City Council, and delivered to DFTA. This is part of their ongoing work with the city. Starting with their incredibly successful Booming Boroughs charrette and exhibition, followed by the Amsterdam Housing study funded by city council member Helen Rosenthal, we look forward to seeing what is next for this industrious committee.

The Design for Aging Committee is fostering awareness and actively creating a more age-friendly city, for this, we are proud to present this Citation of Excellence to the Design for Aging Committee.

21 June 2016
